New York, NY 10017

**RE: Reform of Religious Land Use and Institutionalized Persons Act (RLUIPA)**

Dear Senator Schumer:

I am aware of the recent Rockland Journal newspaper articles regarding the proposed development and construction of a rabbinical college on a 100-acre tract located at the corner of Routes 202 and 306 in Pomona. The proposed college will house 4500 plus residents in an area that is zoned single family residential.

The articles have suggested that under RLUIPA the local zoning laws will be over-ruled. As a resident of New York State, I have concerns that this could happen in my community.

I am asking that you **please** take action to address the serious flaws in RLUIPA. A law that dismisses local zoning laws is unfair to the tax-paying residents. I believe that the RLUIPA legislation is unconstitutional as was its predecessor, the Religious Freedom Restoration Act (RFRA), which was struck down in the Supreme Court decision *Boerne v. Flores*. In order to avoid the costly and damaging lawsuits needed to defend our rights against this unfair law, I ask that you and fellow legislators reform or rescind RLUIPA.

Sincerely,
